Mayor James M. Sottile
City of Kingston
420 Broadway
Kingston, New York 12401

Re: Installation of Manholes, Conduits and a
Bridge-Suspended Conduit System at
Rondout Creek Bridge, Kingston, New York

Dear Mayor Sottile:

We are the General Contractor who has been selected by Central Hudson Gas & Electric Corporation to perform the installation of PVC conduits beneath the Rt. 9W Kingston to Port Ewen Bridge over the Rondout Creek.

The installation of the conduit will commence around the 5th of September, 2011, and the work that comes into contact with pedestrian traffic will be completed on or about September 23, 2011. All work will be performed during the daylight hours, Monday thru Friday, 7:00 a.m. thru 4:30 p.m.

To protect pedestrians from fallen debris, plastic barrels and tape will be located beneath the work area designating the area of potential equipment and material drop. At the end of each work day, the area will be cleaned up, barrels removed and area beneath the worksite will be made available for public parking for the remainder of the day and evening.

The work area will be protected with the use of aluminum picks placed on the existing cross frames of the structural steel between bridge girders 9 and 8. Plywood will be placed on top of the picks to prevent any debris from falling down to the street below. This procedure will be adhered to from the north bridge abutment to Pier #2 Kingston.

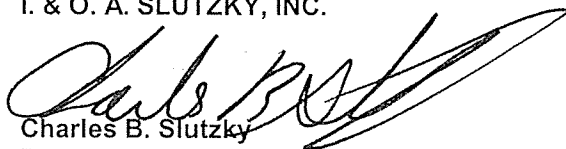

24/7 Emergency Contact:

I & O. A. Slutzky, Inc. – office # 518-263-4268
Bill Slutzky – cell # 845-853-3506
Lynden Potter, Jr. – cell # 607-434-0556

We offer this procedure for your comments and approval.

Very truly yours,

I. & O. A. SLUTZKY, INC.
