Good morning Elisa,

I am accepting the below communication as a late communication. Alderman Davis and I spoke about this issue over the weekend, and we agree it's best to start a conversation sooner vs. later to see if this is a direction the council wants to go. Can you please assign this to Public Safety/General Government for July's meeting?

Thank you,
Andrea

Dear Alderwomen At Large,

Would like to have a communication regarding the possibility of installing crossing signs at various intersections throughout Kingston.

Please see the attached picture.
