# Beginning May of 2014,

the City of Kingston will launch Kingston Report It!, a new online and mobile service request system. Kingston Report It! allows residents to identify environmental and quality of life issues and report those service requests directly to the City of Kingston. Residents can upload a photo or video of the concern and mark the geographic location on a map. Each request is provided a unique tracking number so the user is able to see when action is taken. In addition to the submitting and tracking service requests, Kingston Report It! also has a unique feature that provides a city news and event feed for City of Kingston .

A smartphone is not required in order to use Kingston Report It!, as service requests can also be made online using Kingston Report It!

The next time you see an environmental issue or any other concern, just Report It.
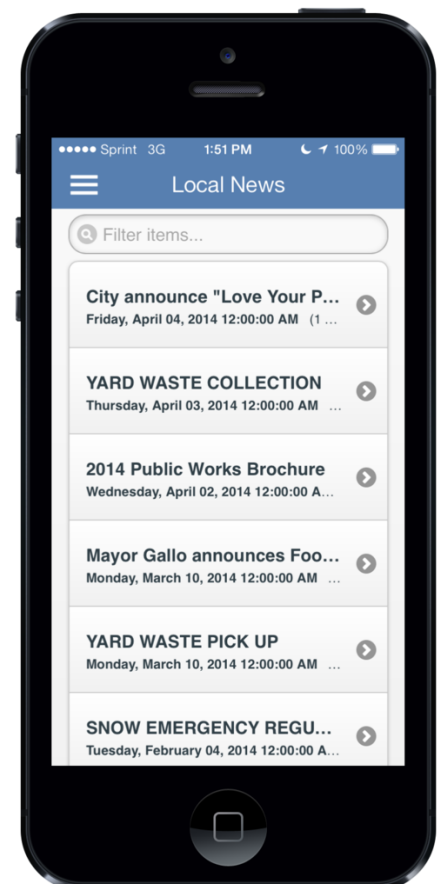

For more information go to: **www.kingston-ny.gov/ReportIt**

Download it for free today!

1. **See an issue.**

2. **Snap a photo.**

3. **Select the location.**

4. **Select issue from list.**

5. **Submit it.**
