Re: SNAP-ED Could End This Year

Dear Kingston Common Council Members,

On behalf of the Live Well Kingston Commission, we are writing today to share information regarding health and food access in Kingston. As a commission tasked with improving the advancement of a healthy and active community by bringing partners and residents together to facilitate policy, environmental, and systems changes, we are dedicated to furthering access and equity in our local food system.

It sadly has come to our attention that the proposed Federal budget, that has just passed in the House of Representatives and is headed to the Senate, makes deep cuts to SNAP and completely eliminates the SNAP-Ed program.

The proposed budget cuts SNAP by \$300 billion over the next decade and increases cost sharing to states from 50% to 75%. SNAP currently helps nearly 3 million New Yorkers, with 38% of those households including children, 49% of households including an older adult, and 49% of households including someone with a disability.

One in every ten residents of Ulster County relies on SNAP to feed their families. In urban areas like Kingston and Saugerties, even more people use SNAP. Using census data in some census tracts, over 26% of households are eligible for benefits.

Cutting SNAP-Ed would harm families already struggling the most. SNAP-Ed costs less than 1% of the SNAP budget and its return on investment is significant. SNAP-Ed helps reduce healthcare costs, improve food & nutrition security, and supports local economies (like farmers markets and small retailers). For every \$1 spent on SNAP-Ed, \$10.64 is saved in healthcare. It's a small investment with a big impact and decisions are moving quickly.

If this bill becomes law, SNAP-Ed would end on September 30, 2025. That would mean the loss of free, community-based nutrition education programs that help families eat healthy on a budget—programs many of you have seen or participated in right here in Kingston.

At Cornell Cooperative Extension, Ulster County's SNAP-Ed Educator, Mary Brimmer, works with both adults and youth in our local communities. Through the SNAP-Ed program, Mary provides educational resources on SNAP benefits, nutrition workshops, healthier school lunches. Mary is also able to connect neighbors in need with other local social service organizations.

Please consider creating a memorializing resolution and sharing our concern of the impacts the elimination of these programs will have with our Federal representatives.

Re: Forsyth Nature Center Storage Building SEQR Determination

Dear President Shaut:

I would like to request the following for placement on the Laws and Rules Committee agenda for June.

Julie Noble has been working with the City of Kingston DPW on a plan and designs for the rehabilitation/restoration of the Forsyth Nature Center Storage Facility. They have produced a plan that will maintain the existing footprint and add two unisex public toilets to modernize the complex so that it can continue serving our maintenance staff, residents and visitors for generations to come.

To continue moving forward with this project and complete the OPEHP ZBGA Grant Agreement, a Resolution of State Environmental Quality Review (SEQR) finding of Type II determination is needed.

This resolution should generally reference the work being undertaken, as the proposed action, and that these actions fall under the highlighted provisions from 6 NYCRR Part 617.5 as attached under which this determination has been made. These highlighted provisions should be included in the resolution. No further action would be required by the City for SEQRA compliance.

If there are any questions, I can be present at the June Laws and Rules meeting to speak to this request.
Thank you for your consideration.

Sincerely,

Jack H Schoonmaker

617.5 Type II actions.

(a) Actions or classes of actions identified in subdivision (c) of this section are not subject to review under this Part, except as otherwise provided in this section. These actions have been determined not to have a significant impact on the environment or are otherwise precluded from environmental review under Environmental Conservation Law, article 8. The actions identified in subdivision (c) of this section apply to all agencies.

(b) Each agency may adopt its own list of Type II actions to supplement the actions in subdivision (c) of this section. No agency is bound by an action on another agency's Type II list. (1) in no case, have a significant adverse impact on the environment based on the criteria contained in section 617.7(c) of this Part; and

(2) not be a Type I action as defined in section 617.4 of this Part.

(c) The following actions are not subject to review under this Part:

(1) maintenance or repair involving no substantial changes in an existing structure or facility;

(7) installation of telecommunication cables in existing highway or utility rights of way utilizing trenchless burial or aerial placement on existing poles;

(8) maintenance of existing landscaping or natural growth;

(9) construction or expansion of a primary or accessory/appurtenant, nonresidential structure or facility involving less than 4,000 square feet of gross floor area and not involving a change in zoning or a use variance and consistent with local land use controls, but not radio communication or microwave transmission facilities;

(10) routine activities of educational institutions, including expansion of existing facilities by less than 10,000 square feet of gross floor area and school closings, but not changes in use related to such closings;

(11) construction or expansion of a single-family, a two-family or a three-family residence on an approved lot including provision of necessary utility connections as provided in paragraph (13) of this subdivision and the installation, maintenance or upgrade of a drinking water well or a septic system or both, and conveyances of land in connection therewith.

RESOLUTION 115 OF 2025

MEMORIALIZING RESOLUTION OF THE COMMON COUNCIL, OF THE CITY OF KINGSTON, NEW YORK, URGING THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION TO INITIATE THE RULEMAKING PROCESS AND ESTABLISH NEW REGULATIONS UNDER 6 NYCRR, PARTS 360 & 363 FOR THE ONSITE TREATMENT AND DISPOSAL OF LANDFILL LEACHATE

Sponsored By: Public Safety/General Government Committee:
Alderman Dennison, Edwards, Pasti, Scott-
Childress, Mickens

WHEREAS, the City of Kingston is a leader in responsible environmental stewardship and policies to protect its residents and unique ecosystem; and

WHEREAS, according to NYS GIS Clearinghouse data there are nearly 50 sites in Ulster County classified as “Inactive Solid Waste Landfills”; and

WHEREAS, landfills contain numerous toxic substances which, without adequate rules and regulations in place for their proper management and oversight, are significant environmental hazards and pose serious risks to public health; and

WHEREAS, landfill leachate contains heavy metals, pesticides, and petroleum-based, synthetic chemicals used in industrial processes, manufacturing, consumer goods and plastics, and has been highlighted as a significant threat to drinking water supplies; and

WHEREAS, 6 NYCRR Part 360.2 (166) defines Leachate as “any solid waste in the form of a liquid, including any suspended components, that results from contact with waste”; and

WHEREAS, in June 2023, the New York State Department of Environmental Conservation (NYS DEC) hosted a virtual stakeholder meeting to present initial concepts for managing municipal solid waste landfill leachate and solicit feedback for future rulemaking; and

WHEREAS, as a result of the meeting the NYS DEC's 2024 Regulatory Agenda pledged to open the rulemaking process for these new regulations by year-end, which has not yet occurred; and

WHEREAS, a 2024/2025 report published by the Hudson and Mohawk Rivers Leachate Collaborative entitled *The Threat of Landfill Leachate to Drinking Water in the Hudson and Mohawk Rivers* exposes regulatory gaps that allow untreated landfill leachate to be sent to municipal sewage treatment plants (STPs) which discharge the landfill leachate and the highly concentrated contaminants it contains directly into the Hudson and Mohawk Rivers; and

WHEREAS, these Rivers serve as drinking water sources for approximately 368,000 people, with 10,000 Ulster County residents dependent on the Hudson River for their drinking water; and

WHEREAS, the report further revealed that from 2019 to 2023 an estimated 89 million gallons of landfill leachate were discharged annually into the Hudson River Estuary and Mohawk River; and

WHEREAS, while modern landfills implement measures to contain leachate and protect nearby groundwater, once collected, leachate is often transported to municipal STPs that operate facilities designed for sewage: not the toxic substances in leachate, leaving the harmful contaminants untreated and discharged into waterways, further burdening downstream municipalities with the removal of these contaminants through drinking water treatment plants at significant financial cost; and

WHEREAS, the current regulatory system is failing to adequately address the leachate problem which requires a new waste management regime to protect the public and shift cost burdens away from municipalities and back to polluters; and

WHEREAS, the rulemaking process would allow various stakeholders to collaborate in designing a system that is both equitable and efficient.; and now, therefore be it

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF KINGSTON, NEW YORK, AS FOLLOWS:

RESOLVED, that the City of Kingston hereby joins with the Hudson and Mohawk Rivers Leachate Coalition, City of Kingston Mayor Steve Noble, and other elected officials and concerned citizens to urge the New York State Department of Environmental Conservation to immediately initiate the rulemaking process to review and establish new regulations under 6 NYCRR Parts 360 & 363 regarding the effective management, treatment, and disposal of landfill leachate; and be it further

RESOLVED, that a 90-day public comment period in connection with this proposed rulemaking be accommodated to ensure meaningful public participation; and be it further

RESOLVED, the Clerk of the City of Kingston shall forward copies of this resolution to the New York State Department of Environmental Conservation Acting Commissioner Amanda Lefton, New York State Department of Environmental Conservation Bureau of Solid Waste Management Director Joseph O’Connell, Chair of the New York State Senate Environmental Conservation Committee Peter Harckham, Chair of the New York State Assembly Environmental Conservation Committee Deborah Glick, and all Ulster County elected State Assemblymembers and Senators, and moves its adoption.
