Subject: [EXTERNAL EMAIL] Cameras and Armored Safety Vehicle

To all who are hired and paid by us to protect us,

My husband, James, and I live at 120 Fair Street in the City of Kingston.

We want it on record that we are totally in favor of purchasing a vehicle that keeps our law enforcement safe should the need ever arise. Do not tie the hands of our police any more than the Governor of NYS already has. If the police aren't safe, where does that leave us?

We are also in favor of installing cameras in any/all areas of Kingston that are deemed necessary.

My husband and I have lived in Kingston our entire lives and have never felt as unprotected as we do now.

Thank you in advance for keeping us all (that includes all of you too) safe.

Julie Donovan

Subject: [EXTERNAL EMAIL] Please consider purchasing a new armored vehicle

I'm writing in support of the purchase of a new armored vehicle to be shared with the Town of Ulster. I know it's one of those things you don't think about until you need it, but severe weather has been occurring more often in our area; as well as increased gun violence. I'd like our first responders to be prepared to respond safely to any emergency they may be called to.

Thank you for your time and consideration.

Rhea Checksfield

Subject: FW: [EXTERNAL EMAIL] Bicyclists in the city if Kingston

Hi, all – I wanted to share this comment that I received from a resident this morning...

Subject: [EXTERNAL EMAIL] Bicyclists in the city if Kingston

Seeing that there is an influx of people riding bicycles in the and throughout the city of Kingston as well as other municipalities, I feel for the safety of ALL residents and non-residents, the City of Kingston should publish and air the LAWS that the bicyclists need to abide by. There was just a fatal bike accident on a Tuesday night July 20, 2021 which may could have been avoided. Bike riders seem to believe that THEY have the right away on roads and highways. My understanding is that a bicyclist needs to follow the same rules of the road as a motor vehicle. (Ie: stopping at intersections, stop sigs, traffic signals, yielding the right of way) I cannot tell you how may times I am driving uptown (I work uptown so everyday)and bikes just cycle right in front of my car or cut me off without even looking. I nearly run them over. I would hate to have to live with the guilt of killing or injuring another human because they are unaware of the bike laws. Please make this a priority through the papers that circulate throughout Ulster Co and even the radio stations. This needs to be addressed before another accident involving a motor vehicle and bicycle occurs. This is very crucial to the life in safety of the residents. I have lived here my entire life of 37 years and I have never seen the amount of bike traffic like now, for every one this needs to be done. Thank you

TARA S.
