Dear Ms. Shaut,

My name is Jennifer Patterson. I am the new Executive Director of the Circle Home for the Dying/Jim & Lisa's Circle Home; located at 100 Wurts Street in Kingston. We are dedicated to serving those at the end of life – those who have the greatest need with the fewest options regarding care. Our mission is to provide a safe place for residents to spend their remaining days – surrounded by love and compassion.

I am writing to you today to request a designated handicap parking space. The ideal location for the parking spot is right outside of the front door of the circle home - on the same side of the street. We prefer if visitors have difficulty walking, they are able to avoid walking across the street and having to walk any lengthy distance. We welcome family members and friends to visit their loved ones residing at the Circle Home and we anticipate a variety of ages, physical ability and mobility of visitors coming to the home. It is important to us to provide easy access to the home for those who may need it.

Thank you for taking the time to acknowledge my request. We are working hard to bring a very needed service to our community and the residents who live in it. If you need any additional information, please reach out to me. I can be reached at execdirector@circlehome.org or 845-430-5740.

Warmly,

Jennifer Patterson

President Shaut

I received complaints from constituents on Abeel Street regarding excessive speed on the section of Abeel Street between Block Park and the railroad trestle. This has increased since the Wurts Street Bridge has been closed and vehicles are now using Abeel Street more frequently. The stop sign and blinking light at the intersection Hunter and Abeel were put in place address the issue.

Residents are seeking additional traffic calming measures.

Thank you.

Respectfully Submitted

Steven Schabot
