Subject: RE: Lowering Speed Limit to 25mph on Webster Street

Good morning,

I was just reviewing the agenda for tonight's meeting and noticed that this accepted communication is missing from the agenda.

Thank you.

Michele Hirsch
Alderwoman, Ward 9

Good morning,

After discussing with Alderwoman Hirsch, I will accept this late communication for March's Public Safety meeting. The constituents have waited a year for the completed engineering study. In fairness, I do not want to extend their wait any longer; therefore, I will waive my normal stringent deadlines.

Elisa - can you please add this to the March Public Safety meeting?

Sincerely,

Andrea Shaut

Council President, City of Kingston

Subject: Lowering Speed Limit to 25mph on Webster Street

Dear President Shaut,

I respectfully request to add this late communication to the Public Safety Committee agenda for the April meeting.

Hudson Valley Wrap-Around Services operates a special education pre-school on Webster Avenue next to Health Alliance Hospital on Mary's Avenue. The school has requested a lowered speed limit and signage on Webster Avenue which the City of Kingston Engineer, John Shulties has approved as of today. The Common Council will need to legislate the lower speed limit.

Thank you for your consideration.

With kind regards,

Michele Hirsch
Aldерwoman, Ward 9
City of Kingston Common Council
