

Kingston Open Space Plan Public Visioning Workshop

September 25, 2018

Table Questions

Resource Protection

What are the biggest open space needs and opportunities in the City of Kingston?

What specific natural areas of the city would you like to see preserved?

Are there specific natural areas or resources which are currently threatened?

Are there underutilized or brownfield properties that could be cleaned up for public enjoyment?

What do you think are the most important natural/historic and cultural resources in the city?

What should be done to help protect water quality?

Trails & Recreation

What existing trail or multi-use path improvements would you like to see?

What future trail or multi-use path connections would you like to see?

Kingston Open Space Plan

Page 2 of 2

What existing park or recreation area improvements would you like to see?

What future parks or recreation areas would you like to see?

What areas would you suggest for improved waterfront access?

Policy Questions

What items or ideas might a “Kingston Open Space Vision Statement” include?

What are the major barriers to open space preservation?

How do we best balance the rights and interests of private landowners with the goals of open space preservation?

What kinds of tools/incentives do you think would be the most effective to preserve land in Kingston?

Are there issues with current zoning which can undermine open space preservation goals?

Do you have any concerns about an open space plan?
